

HEALTH AND SAFETY POLICY

Equiset is a leading Australian owned Construction and Asset Management company.

The company is committed to ensuring that all people who work on or visit our workplaces, including the public, are provided with an environment that is safe and free from risk, so far as is reasonably practicable.

In order to achieve this, Equiset recognises that Health & Safety is the key component in all our business activities, and has established Objectives and Targets which focus on continual improvement, aimed at eliminating hazards and risks which may result in work related injury and illness.

Equiset is committed to complying with relevant Health & Safety legislative requirements and aims to meet or exceed industry and community expectations.

In addition, we are working to achieve and maintain accreditation to the requirements of AS/NZS 4801:2001 Occupational Health and Safety Management Systems.

To achieve a safe workplace, management has committed to communicating, consulting and training all staff in relation to all relevant safety matters.

All safety related policies and procedures are reviewed on a regular basis to ensure that they remain relevant to the organisation.
